

Verio PC Data Backup

Verio On-Demand Services from MarketWorks, LLC

Providing SaaS offerings for today's small businesses

MarketWorks, LLC now offers Verio On-Demand Services, a growing series of software-based business enablement services. The services empower businesses of all sizes to capitalize on powerful, market-leading software innovations, without the need to invest the time and resources typical of business software installations.

A simple, solid data protection plan.

In partnership with Iron Mountain, the premier provider of data security and protection services, we provide the ideal service for online PC data backup. At less than 50 cents a day, the plan delivers the greatest possible peace of mind per penny. Using the program is remarkably simple. **Here's how it works:**

- » **Easy setup** – It takes only minutes to download and install a small software “agent” that automates your backups. You use the agent to initiate an initial backup, schedule future backups, retrieve files, review logs, and manage your account.
- » **Automatic backup** – The data protection plan is entirely automated and easy to control. You perform an initial backup to begin and then dictate the schedule you want for automatic subsequent backups. All data is archived (mirrored) to an ultra-secure Tier-1 data center.
- » **On-demand data retrieval** – When you need to retrieve your data, you can do so anytime with only a few mouse clicks, and you can save up to three previous versions of a file for 30 days. Plus, all files you delete are saved for 90 days.

Verio PC Data Backup Is Simple:

- » **True Peace of Mind** – The service automatically backs up your computer to Tier-1 data centers through a secure Internet connection. Your data is backed up to dual mirrored sites that are more than 1,000 miles apart – so even a natural disaster won't affect it.
- » **Secure Connectivity** – The program employs 128-bit AES, the same encryption used to protect classified U.S. government documents.
- » **Serious Value** – Our data backup solution combines the power and protection of a corporate solution at a price every business can afford. Pricing options start at less than 50 cents a day.
- » **Complete Support** – World-class customer support experts are available to help with all your data backup needs, 24/7.
